

Making Sense Of
SECURITY

SANDBOX SOS
If the VM behaves strangely

DO THESE IMMEDIATELY

1. Pause the VM immediately (Machine → Pause).
2. Note what the file was and what happened.
3. Revert to the CLEAN snapshot.
4. Do NOT open the same file on your host.

PREVENT THIS — TURN ON

- ✓ NAT networking only
- ✓ No shared folders or USB pass-through
- ✓ Snapshot-revert every session
