

# Up Apple Legacy Contact And Google Inactive Account Man

n-English how-to. ~30 minutes. The two settings that let your family recover photos, email, and documents if you're g

**How to set up Apple Legacy Contact and Google Inactive Account Manager — and document them so fam**  
Print, share, and re-run quarterly.

## Do This Right Now

#	STEP
1.	Talk to the people you'll name as legacy contacts.
2.	Set up Apple Legacy Contact via iPhone or Mac.
3.	Set up Google Inactive Account Manager via web.
4.	Configure Facebook memorialization settings.
5.	Document all of it in your password manager.
6.	Print the Apple access key; store with your will.
7.	Tell your executor where the documentation lives.
8.	Review annually + after major life events.

## Why This Matters

- Apple and Google together hold the cloud accounts of the majority of US adults. Without legacy contacts pre-arranged, surviving family
- Apple Legacy Contact and Google Inactive Account Manager are both free, take minutes to set up, and are revocable at any time. The
- Single-digit percentages of users have configured either. Most families discover the gap exactly when it's too late to fix. Estate-plannin
